John,

Would you please provide a Typical layout for the drill sites showing the square footage of disturbance and the area to be covered by brattice cloth (all?) as well as location of rig, parking, mud tank, topsoil storage. And I would like to see the yellow sweetclover and rabbitbrush removed from the seed list.

Thanks.  
Priscilla.

Priscilla

The attached still has one change on page 4 second paragraph.

It will read

All areas disturbed under this drilling program that were not previously disturbed (i.e. roads) will be.....reclamation.

All existing dirt roads will be left in at least the same condition as they were prior to drilling.
